Welcome address

Dear colleagues,

Dear friends,

The Hellenic Neurosurgical Society is proud to announce the fourth vascular and endovascular Hands-On course in Athens.

It is true that only a limited number of neurosurgeons have practical experience in vascular and endovascular treatment strategies. Especially young Neurosurgeons lack insights into the changes and challenges of endovascular therapies thus limiting their Neurosurgical competence.

This course aims at young specialist neurosurgeons and residents as well as neuroradiologists who wish to achieve a microvascular knowledge and understanding of current vascular and endovascular treatment of brain aneurysms.

The faculty consists of experienced vascular and hybrid neurosurgeons, as well as interventional neuroradiologists with a vast experience in endovascular field.

We are looking forward to welcoming you in Athens.

Warm regards,

Vasileios Panagiotopoulos MD, PhD

Programme at a glance

Friday 16 April 2027 · Endovascular session

- Theoretical sessions 1 and 2
- Hands-on: endovascular simulator (physical and visual)
- Hands-on: clipping on brain models
- Hands-on: preparation of placentas

Saturday 17 April 2027 · Vascular session

- Theoretical sessions 3 and 4
- Hands-on: clipping on brain models
- Hands-on: placenta microdissection

Practical information

Registration fees (VAT 24% included)

- Full course: 500.00 €
- Second day only: 200.00 €

The fee includes the course (1 placenta and 1 brain model per 2 participants), the theoretical sessions, course material, coffee breaks and light lunches.

CME, language and venue

- Submitted to the Panhellenic Medical Association for 15 European CME credits (ECMEC®s)
